COURSEWORK

UNDERGRADUATE
Object Oriented Programming
Operating Systems
Information Retrieval
Neural Networks &Fuzzy Logic
Computer Graphics
Microprocessors and Interfacing
Digital Design
Computer Programming (C C++)

CERTIFICATIONS
Algorithmic Toolbox
(University of California, San Diego)
Applied Machine Learning in Python
(Michigan University)

SKILLS

PROGRAMMING
Well-Versed
• C++ • Python • PHP
• HTML/CSS • Bootstrap
Familiar
• C • Algorithms • Javascript • NodeJS •
Java • Spring • React-native • Git
Basic:
• Django • Machine-Learning • OpenGL

CO-CURRICULARS

• Chess player
• Yoga Medalist
• Hobbyist Swimmer

EXPERIENCE

AMAZON
Software Development Engineer
Jul 2022 - Present | Bangalore
- I am a software developer with global impact (clients across 30+ countries), skilled in Java, Spring Framework, React Native, and JavaScript frameworks, with expertise in RESTful API development. Proficient in Python scripting and pipeline design, I collaborate with 10+ teams for timely issue resolution.

AMAZON
Software Development Intern
Jan 2022 - Jun 2022 | Chennai (WFH)

- As a part of the Appstore Tablet-Only Tech team, have worked so far on multiple api endpoints, packages and frameworks. I also worked on pipelines, alarms, and operational-exercise works towards the end of my term.

HDFC LIFE
Backend Web developer
Jun 2021 - Aug 2021 | Mumbai

- I was a part of the medical easy journey team, and working on the MERN stack based API that is used in the medical easy project. I helped with integration of a lot modules, and development of a number of API routes.

STUDENT WELFARE DIVISION, BITS HYDERABAD
Co-ordinator and Backend Web developer
May 2020 - May 2021 | BITS Hyderabad
- As SWD Nucleus team coordinator, I led the team in developing an iOS app and remaking the SWD website from scratch. This positively impacted over 5000 students and numerous campus residents by improving access to SWD services and potentially increasing efficiency.

PROJECTS

AMAZON WEBSITE CLONE | Full Stack Developer
April 2021 - May 2021
I created a functional API for an Amazon-like website clone as part of my college's Object Oriented Programming course project. The API was built with NodeJS + ExpressJS and utilized a MySQL database to provide all necessary features.

SWD APP | API Developer
April 2019 - June 2019
An API layer for the SWD app on play store. The API has been written using PHP 7 , with MySQL database. The information is sent in the form of JSON web tokens.
